Acknowledgement

Receipt is acknowledged of the Amendment filed August 17, 2005.

Reasons for Allowance

Claims 1-9 and 12-18 are allowable over the prior art of record.

The following is an examiner's statement of reasons for allowance: the best prior art of record, Morris, taken alone or in combination of other references, does not teach or fairly suggest a signal line termination circuit comprising, among other things, a mechanism having a first point, a second point, and a third point and the control signal of the software controller being directly electrically connected to the first point and applied to the third point through a resistor so that the resistor electrically connects the first and third points, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
